

APT15 REFLEX

SHOCK ABSORBER SYSTEM

Save your back

High Tensile Spring Steel Blade positioned between the two gripping zones allows shaft to slightly flex as you lift (or impact) substrate thus **smoothing out all resultant forces transferred to your body.**

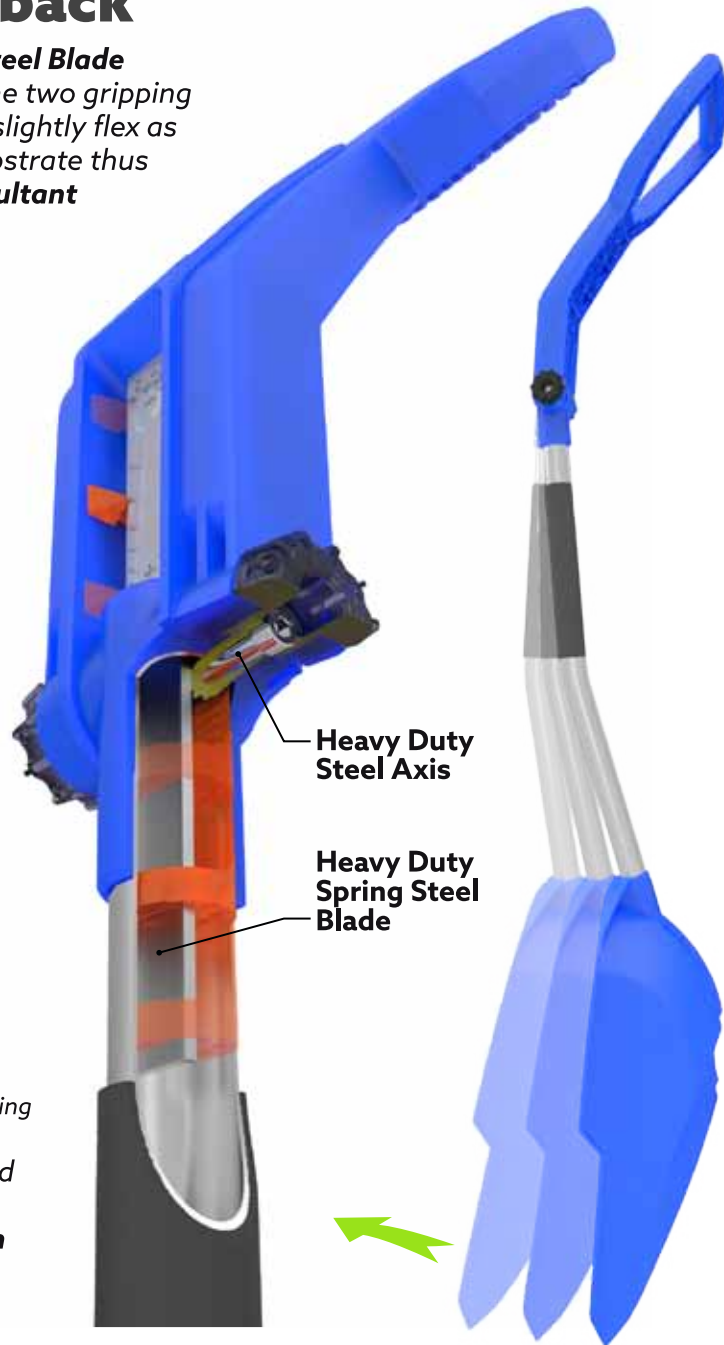

Flex Level Setting

Set Flex level to your particular taste by a simple rotation of the knob

Rotatable Knob

Throw Easier

As your motion ends up (ejecting shovel load), the spring blade releases its stored energy and contributes to **project your shovel load further and with more ease** than any other shovel would allow !

Heavy Duty Steel Axis

Heavy Duty Spring Steel Blade

Specifications

Model: **AP-15 REFLEX**
 Unit dimension: 9"x 14.75"x 52.750"
 23cm x 37.5cm x 134cm
 Unit Weight: 3lbs(1.4kg)
 Color: Black / Blue accents
 Plastic Parts: High Density Polyethylene
 Aluminum Alloy: 6063 T5
 Blade: Zinc Coated Spring Steel
 UNIT UPC: 6-27843-56775-2

Master Pack Dimension: 20"x 16"x 53" [50.8cm x 40.6cm x 135cm)
 Master Pack Total Weight: 25lbs(11.35kg)
 Items per Master Packs: 8
 MP UPC: 1-062784-356775-9
 Display: Self Standing Display Included
 Instruction Brochure: Included

Comfortable Textured Handle
 Stiffness Indexer
 Spring Steel Blade Cover
 Flex Level Adjustment Knob

Black EPDM (Synthetic Rubber) Soft Grip
 Optimized Ergonomically curved aluminum shaft and handle combination for best possible posture

Ultra Light High Tensile Aluminum Shaft

Impact Resistant Reprocessed High Density 15 inch Wide Polyethylene Bucket
